

Summer Seminar Solutions for Struggling Students

AT:LAST THERE IS A SOLUTION!

Do you try to stay organized but it just isn't happening?

Do you get overwhelmed by having to write papers?

Do you have trouble understanding and remembering the information that you read?

Do you study and work hard, but your grades don't reflect it?

Are you ready to find some tools/tips that can help you get organized?

Do you like to use technology (computers, MP3 players, etc)?

Use your summer break to learn cutting-edge technology tools to increase your academic skills & confidence!

Come explore over 25 different types of assistive technology software, along with countless new assistive technology devices, such as digital handwriting tools, portable notetakers and electronic whiteboards, and see how they can help you improve your reading, writing and organization skills.

Unlike summer programs you may have attended in the past, this one is totally different because we look at how **technology tools can help YOU succeed in school and get you ready for the demands of college work.**

Middle school sessions: 9:00—12:00
High school session: 1:00—4:00

SAVE THE DATE!

ORGANIZATION

June 29—June 30, 2009 (\$99)

Learn technology tools/tips to:

- Keep track of your time
- Balance school, sports, clubs and social events—keep your calendar manageable!
- Stay organized with school assignments

WRITING

July 13—July 16, 2009 (\$195)

Learn technology tools/tips to:

- Change the way you take notes—go digital!
- Help get started writing—avoid the dreaded blinking cursor & writer's block
- Get the words in your head **DOWN** on paper and have them spelled correctly!
- Create professional-looking final copies

READING

July 27—July 30, 2009 (\$195)

Learn technology tools/tips to:

- Read textbooks and other print materials
- Scan text into electronic format for the *computer to read to you!*
- Convert text into audio format to use on your MP3 player
- Help increase your reading comprehension—remember what you read!
